COMMUNITY GOVERNANCE REVIEW – SLDC

South Lakeland District Council undertook a Community Governance Review (CGR) of the whole of the District and residents were notified of the review in the Parish newsletter in April 2019.

Final recommendations have been made by the CGR, subject to approval by full council on 23 July 2019, to recommend that in order to ensure effective and convenient community governance, the number of councillors on Lower Allithwaite Parish Council will be reduced from fifteen to eleven. The review has proposed that the parish consists of two wards - Allithwaite and Cartmel with Upper Holker, comprising of six and five parish councillors respectively. The review stated that this would give wider access to councillors for parishioners of Upper Holker and reflects the pattern of vacancies in recent elections.

SLDC are currently putting the proposals into an accessible format to be displayed on their website, you will be able to access them by visiting this link: <https://www.southlakeland.gov.uk/voting-and-elections/electoral-reviews/community-governance-review-2018-to-2019/> and navigating to the final recommendations section.

“MOUNTAINS AREN’T JUST FOR VISITORS” £3 MILLION GRANT TO HELP LOCALS MAKE THE MOST OF AREAS OF NATURAL BEAUTY ON THEIR DOORSTEPS

Cumbria is going to be one of 3 regions across the UK to start benefiting from The National Lottery Community Fund.

Cumbria has been selected as one of just three areas for this first investment. Many view Cumbria as a great place to live, work and play, which it is, however under the surface there are stark inequalities across the region. Along the coast in particular, many local people are not getting the physical health and mental wellbeing benefits of accessing the wonderful landscape that this county has to offer. This is a fantastic opportunity to help our local communities to enjoy the outdoor spaces and natural environment.

STAYING SAFE ON LINE

With most of us relying on the internet to one degree or another to communicate, manage our finances, obtain products and services and enjoy entertainment, it really is a wonderful resource.

Unfortunately, however, things can and do go wrong online, with an increasing number of people of all ages and backgrounds being affected by fraud, identity theft and abuse, some of it originating in the UK, but a great deal from abroad.

There are simple technical steps we can all take to protect ourselves, but most problems can be avoided by making sure we always follow some simple rules and use our common sense. The following are some ‘golden rules’ you should follow whenever you are online. That way, you have a better chance of staying safeguarded.

1. Chose, use and protect your passwords carefully, and use a different one for every account.
2. Ensure you always have internet security software/app loaded, keep updated and switched on.
3. Never reveal too much personal or financial information.
4. Do NOT click on links or open attachments if the source is NOT 100% known and trustworthy.
5. Take your time and think twice, because everything may not be as it seems.

You can find more information on these and other tips at: www.getsafeonline.org.
